PROFILE

Third-year Software Development student at Kristianstad University with practical experience in full-stack web development, Android development and desktop application development through academic, team and personal projects. Experienced with JavaScript, Python, Java and Kotlin, with hands-on experience using React, Node.js, Express.js, MongoDB, Jetpack Compose and Git.

Currently seeking a software development internship where I can apply my technical skills, learn from experienced developers and contribute to real-world software projects.

TECHNICAL SKILLS

Programming Languages: JavaScript • Python • Java • Kotlin • HTML • CSS

Frontend Development: React • Vite • React Router • Axios • Bootstrap

Backend & Databases: Node.js • Express.js • MongoDB • Mongoose • REST APIs • JWT • Firebase

Android Development: Android • Jetpack Compose • Retrofit • Kotlin Coroutines • MVVM

Tools & Other: Git • GitHub • Stripe • PyQt5 • scikit-learn • Jira • Object-Oriented Programming

PROJECTS

SmartHomeGitOps — Android Application

Kotlin • Jetpack Compose • Retrofit • MVVM

- Developed an Android application using Kotlin and Jetpack Compose that communicates with the GitHub REST API.
- Implemented MVVM architecture, Retrofit and Kotlin Coroutines for asynchronous API communication.
- Developed functionality for monitoring Pull Requests and comments and identifying potentially suspicious or security-related activity.
- **GitHub:** github.com/dev-Mikcidy/smart-home-gitops

Hair Salon Booking System — Full-Stack Personal Project

React • Node.js • Express.js • MongoDB • JWT

- Developed a full-stack salon booking application using React, Node.js, Express.js and MongoDB.
- Implemented customer booking functionality and JWT-based authentication.
- Developed an admin dashboard for managing services, customers and bookings.
- Implemented email notifications and automated booking updates.
- **GitHub:** github.com/dev-Mikcidy/hairsalon-booking

Electronics Online Store — Full-Stack Team Project

React • Node.js • Express.js • MongoDB • JWT • Stripe

- Developed a full-stack e-commerce application as part of a development team.
- Implemented product browsing, user accounts, shopping cart functionality and Stripe payments.
- Contributed to an admin dashboard for product and order management.
- Collaborated with team members using Git and GitHub throughout development.
- **GitHub:** github.com/dev-Mikcidy/Online-store

SoulSync — Desktop Application, Team Project

Python • PyQt5 • Firebase • Jira • OOP

- Developed a desktop application as part of a team using Python and PyQt5.
- Implemented mood and stress tracking, journaling, user accounts and personalized feedback.
- Used Firebase for data management and Jira for project management and team collaboration.
- **GitHub:** github.com/LungoweA/SoulSync

EDUCATION

BSc in Software Development — Kristianstad University, Sweden

2024 – 2027 | Ongoing

Focus on software development, programming, software engineering, web development, mobile development, databases and application development.

WORK EXPERIENCE

Pizza Chef / Catering — Bike and Bake, Copenhagen, Denmark

September 2021 – Present

- Prepare and bake pizzas and other food for restaurant service and catering events.
- Work efficiently during busy service periods while maintaining food quality, hygiene and safety standards.
- Collaborate with colleagues to organize food preparation, manage orders and ensure timely service.
- Take responsibility for daily kitchen tasks while maintaining a reliable and organized workflow.

LANGUAGES

English: Fluent | **Swedish:** Intermediate | **Danish:** Basic

ADDITIONAL INFORMATION

Driving Licence: Category B
